CAREER VISION

Seeking position to utilize my skills and abilities in the information technology industry that offer professional growth while being resourceful, innovative and flexible. Entry level position in Software Design/Development.

EXPERIENCE

- **Job Title:** Android App Developer Intern
Company Name: Ekatta Innovators LLP
Time Period: January 2023 - July 2023
 - Developed and maintained Android applications using Java.
 - Collaborated with the development team to implement new features and fix bugs.
 - Conducted code reviews to ensure code quality and adherence to coding standards.
 - Created and updated user interfaces (UI) for improved user experience.

PERSONAL PROJECTS

- **Contactify - Interactive Contact Form Web App**
(03/2024-03/2024)
 - Developed a dynamic and user-friendly Contact Us web form using React.js for the frontend.
 - Implemented a secure and efficient backend using Spring Boot, facilitating seamless communication between the frontend and the MySQL database.
 - Integrated MySQL to store user input data, ensuring persistence and accessibility for future reference.
 - Incorporated form validation to enhance user experience and ensure accurate data submission.
 - Achieved a responsive design, providing a smooth and visually appealing interaction for users on diverse devices.
- **Dice Game**
(02/2024-02/2024)
 - Dice Game developed using technology React.js and IDE is used VSCode.
 - Functionality of this Dice Game, user first select number between 1 to 6 and then click on dice image. If user selected number and number get from dice is same then user get points same as dice number. If number is not matched then points described by 4 points from total score.
 - User can reset score by click Reset button.
 - User can see rules by click on Show/Hide rules button click.
- **BookBazaar-Library Management System**
(11/2023-11/2023)
 - Developed using Spring Boot for the backend functionality.
 - Leveraged Hibernate for efficient communication with the MySQL database.
 - Frontend designed using Thymeleaf, HTML, CSS, and Bootstrap for an intuitive user interface.
 - Implemented CRUD operations allowing users to seamlessly add, view, and update book details.
 - Introduced a 'MyBooks' feature enabling users to curate a list of favorite books.
 - Responsive design with Bootstrap ensures an optimal user experience.

- BookBazaar is a testament to my ability to create a functional, user-friendly library management system, combining the power of modern technologies for a seamless user experience.
- **Customer Management Application**
(06/2023-06/2023)
 - Customers Management Application is developed in Android Studio IDE.
 - Frontend of Customers Management Application is developed in XML.
 - Backend functionality is done using Java language.
 - Implemented SQLite for efficient local data storage and management in the Customer Management Application.
 - Using this application User can add customers and send SMS to customers.
